

■ Welcome

Ecoop 2005

The 19th European Conference on Object-Oriented Programming will happen in Glasgow, Scotland, in July 2005. Two of Scotland's leading Universities, University of Glasgow and the University of Strathclyde, have joined to host ECOOP in Scotland.

Glasgow is Scotland's largest city and is surrounded by some of the most breathtaking scenery in Western Europe, made famous down the years in verse and song. Today, the city has emerged as the cultural, culinary, commercial and convention capital of Scotland. In the ECOOP tradition, an exciting programme of workshops, tutorials, and technical paper is anticipated. This will be complimented by a social program reflecting the amazing diversity of Scottish culture and history.
