

Stuff on guard rota problem

I left version v4 running on my windows box ...

```
CA. Command Prompt
%%mzn-stat-end

Z:\public_html\cpM\weekByWeek\week2\01-guardRota>minizinc guardRotaV4.mzn guardRota.dzn -D"budget = 32" -s
Generated FlatZinc statistics:
Paths: 0
Variables: 270 bool, 113 int
Constraints: 174 bool, 278 int
    This is a minimization problem.
OFF OFF OFF OFF OFF OFF OFF OFF Ann
